

Roundtable discussion on all things locker rooms: gender inclusive spaces, staffing, equipment...

UW Recreation will be facilitating a conversation about locker rooms – gender-inclusive spaces, staffing, locks and lockers, equipment check-out, etc. We are undertaking plans with our student government leaders to renovate our 50-year-old locker room spaces, to move away from binary/gender-specific spaces as the only option for students and other users. In addition, we are looking to centralize our lock/towel/equipment check-out areas, to move student employees out of the current footprint of our two locker rooms. Please join us for this important conversation.
